Hongkong and Shanghai Banks have improved and business at \$670 has been transacted the market closing with further large buyers at this price. There is no alteration in the London quotation. Nationals continue in demand at \$28.

Marine Insurances .- Unions have suffered a sharp decline and shares have changed at \$505 and \$500, closing with further sellers at the latter rate. China Traders romain in request at \$60, and Cantons are still wanted at \$175

Fire Innurances. Hongkong Fires have advanced and are enq ired for at \$3 5. hina Fires have buyers at \$84, after sales

Shipping.—Hongkong, Canton and Macao Steamboats are steady at \$37. Indo-Chinas are rather firmer and there are enquiries at \$107. Douglas Steamships are unchanged and can still be placed at \$42. China and Manilas are asked for at \$2.6 Star Ferries Have buyers at \$203 and \$154 for the old and new shares respectively. Shell Transports are quitted at £17/6.

Tefineries.—China Sugars have hardened and are in small request at \$106. Luzons are to be had at \$12.

- Mining .- Punjoms are in the market at 83. The Raub are wanted at \$8'. Jelebus and Chinese Engineering are offering at

quotations. Docks, Wharves, and Godowns .-- Hong kong and Whompon Docks have impoved and are in request at \$210. Farnhams have experienced a charp rise and are now in enquiries at \$89, and Hongkew Wharfs are wanted at Tls. 290.

Lands, Hotels and Buildings - Hongkong Lands have again changed hands at \$169. Hongkong Hotels remain firm with buyers at \$149. West Points have improved and are wanted at \$52 | Kowloon Lands have dropped to \$39, at which rate shares are procurable. Humphreys' Estate are stillenquired for at \$121 China Providents have again been done at \$9.80. Cotion Mills .-- Ewos have declined and

are to be had at Tis. 38. Hongkong Cottong can be obtained at \$16. Cigar Companies - Nothing doing.

Miscellancous .- Green Island Cements have further risen and can now be placed at \$241. A. S. Watsons have been sold and are still offering at \$142. Electrics (old issue) are wanted at \$13 and there are buyers of the new shares at 87. Langkats, after touching Tls. 265, advanced to Tls. 305 but this position was not maintained and the market has since reacted to Tis. 290, at which rate shares are obtainable.

#### GREAT BRITAIN AND AFGHANISTAN.

The Bourse Gazette of Moscow has come to the interesting conclusion that Great Britain intends to make an end of Afghanistan as a 'buffer State,' and that Lord Kitchener has this task immediately in front of him. England, according to this authority, has already massed in the Punjab 35,000 troops, and she has a reserve of three corps of 70,000 meu. The dispositions for attacking the Khanate lar army of \$7,000 infantry, 7,000 cavalry, Marks of the following Trade Mark: and 360 guns. The Afghan irregular reserve is about equally numerous. The regular army is badly trained and discinlined; the irregular forces have practically no training or discipline. The Ameer's finances are at a very low obb, and his authority has been shaken by internal dissensions. Consequently, if left to its own defensive resources, 'Afghanistan must submit to the overwhelming power of its aggressive 'sezerain.' The Central Asian Khanate has now a very different task to face to that out of which it came successfolly in 1840 and in 1885. The only hope of the Afgham is Russia. This country alone can saveits Eastern neighbour from complete absorption by British India When Russia formerly proposed to make her frontier in Central Asia coterminous with British India the British Governments, Conservative and Laberal alike, scouted the idea. It now pleases England to abandon its old principle of a buffer State it may just as well please Russia to conserve that arrangement. Such is the immediate prospect in the Middle East according to the quidnance of Moscow.

A Correction.

A slight inaccuracy occurred in the report of Mr Wyatt's speech at the Taikoo Sugar Refinery, which was published in our issue of Thursday. The report read that 'if the British navy were defeated Hongkong would be captured within a week, and the same thing would happen with Shanghai and every other place at present under British rule in the East.' What Mr Wyatt did say was that if Great Britain did lose command of the sea in war the swift ruin would be assured of every British community whether inside the Empire as at Hongkong, or outside it as at Shanghai.

A NEW PLAGUE HOSPITAL

Opened by the Governor. At 11 o'clock this morning, Excellency Sir Henry Blate opened the new branch of the Tung Wa Hospital at The correspondent of the Standard at Kennedy Town. Several of the directors of the institution and a number of utility prominent Chinese citizens were present.

The new hospital is a handsome pile of buildings, the architecture being after the Commandant Botha and his colleagues Italian renaissance. The wards, which hard accommodation sufficient for 68 patients, are large and siry and have been tensive recruiting in Africa or failing that designed with a view to securing as much ventilation as possible. Altegether there are seven words, one being forconvalescents. vanlers convicted of military offences during | The building is two stories high and is built of brick and stone, the erection throughout being upon modern principles of hospital construction. Mr B. B. Harker was the architect, and made a special point

having the Sanitary arrangements carried out upon the latest lines. At the time appointed for the opening His Excellency and the company assembled forward the hospital have had a great deal in the receiving room, which was decorated for the occasion, and Mr Lau Chu Pak thing to the Chinese people to be able spened the proceedings. He said Your Excellency, -In the name and on behalf of the directors of the Tung Wa Hospital, I have great pleasure in requesting you to declare other day, we may hope to have local open this plague hospital, which is to be hospitals established before next year, in conducted as a branch of the existing Tung matter was agitated for some year-Wa Hospital. It is a foolish During previous epidemics, temporary thing to prophesy, but taking into hospitals have been in use for this purpose, but it has, throughout, been looked forward of it for this year. I have a number of to, that a permanent Chinese Infectious Disease Hospital would be erected. Accordingly, after your Excellency's arrival in the Colony, these proposals were submitted to you, and your hearty sympathy with the scheme has secured the fulfilment of these desires and aspirations. The funds erection and the equipment of the institution have been subscribed by the Chinese and European Communities, and I have no doubt that the amount necessary for its maintenance, year by year, will be as willingly subscribed. It is proposed, as I have already indicated, that this institution shall be carried on as a branch and extension of the existing Tung Wa Hospital and on precisely similar lines, all the patients admitted being given the option by Chinese or Western As is unfortunately too apparent, the buildings here are not quite complete, but your Excellency has been good enough to consent to a proposal that for the time being, the kitchen, laundry and mortuary of the Government Hospital buildings may take their share in meeting it may fully carry out the beneficent use the present emergency, created another epidemic season comes I hope that the whole of our proposals for this Hospital may be rounded off and completed. The urgency of the present situation has made it impossible for the Directors to arrange as they should have liked to for the opening ceremony. I must therefore, ask your Excellency to use a very ordinary iron key to open the hospital. The Directors will later on forward to

you as a memento of this interesting occasion the key which ought to have been ready for your Excellency's use to-day. With these few words your Excellency. have much pleasure, in the name of and on hehalf of the Tung Wa Hospital, to request

you to declare this building open. (Applause). The Governor was received with appleuse

on rising. He said: I have come here very readily, and with great pleasure to assist you in the opening of this most necessary addition to the Tung Wa. Hospital, for it is not one day too soon that this opening has taken place. I have just been round the whole of the adjoining hospital and I find there that the wards are fally occupied. I earnestly hope that these wards may only be necessary for the par pose of relieving what is undoubtedly congestion in the other hospital, and that the numbers in the hospital may not be increased in the immediate future. I take an opportunity such as this occasion presents are not easily conveyed otherwise. some of you are aware, assisted by Fung Wa Chun and others, and by the medical officers, not alone the Civil Medical Officer, Mr Atkinson, but also Dr Penso. I have been personally conducting a vermonths. The experiment is really for the purpose of seeing how far we could get the Chinese people of the city to themselves ad pt the necessary means of sanitation. and how we could bring those means within the power of every householder and tenant so that they would be carried out, thus assisting us to secure the salety of the whole of the people. Well, I have nothing to complain of. I had Second and Third Streets banded over to me by permission of the Sanitary Board, because I asked them to let me have the worst and poorest district in the town, and I found people were cleaning their houses and taking advantage of the opportunities given them to colobrate their success. to wash their clothing and to bou their bed hoards. Aft has been discovered that the plague bacillus existed in diseased towls and possibly it existed in fowls that might have been sold in the markets, and consequently I have been impressing upon the people the desirability of thoroughly old Patna, cash cooking their food, and the danger of eating half-cooked food. To you who are present, it is hardly necessary for me to say but I am aparking above heads to many untaide who read in the papers what I am now saying I have seen people of the poorer class.

people live in such surround ngs and with such sun-light and air as will enable them to misist the attacked disease, then we may hope for the termination of this plague eudenia. But we must remember that in seeking for the cau o of the endemic wo sro alw-ye | kely to solze upon one or two salient points, and forget that there are other avenues by which the disease may outer, and which

we should close by proper precautions if possible. I find upon the examination by Dr Hunter of insects such as bugs sid spiders found in houses, especially in shoung Pu lane, which I was obliged to clear out on account of the number of cases. that they have had the plague bacillus in them. I have myself written a notice to be printed in Chinese, bringing these simple facts before the people, and impressing upon them the absolute necessity of cleansing their houses and boiling their bed boards, -- which were no doubt a potential factor in spreading the plague. Looking back over the time since I laid the foundation stone of this building I remember, among all others who deserve credit for this excellent work - and there are many whom I could name-that there is one whose name stands out very prominently and that is Mr Fung Wa Chun, whose pertinacity and energy and untiring determination to push

for occupation. It should be a pleasing to boast that they have, in addition to the Tung Wah hospital, the fine one at Kennedy Town. 1 don't like to say anything as to the future, but from the motion passed by the Sanitary Board the closely study the question. stricken with plague, instead of being terrorised by the long journey to Kennedy Town, have chearfully gone into the evidence that the hospital has had the effect of spreading the consideration the recent state plague. I think we have passed the worst statistics showing the state of the epidemic since the 7th of February, and the figuresare interesting showing as they do a steady decrease in the percentage of deaths. I have taken periods of four weeks from that date when about 12 cases occurred. In the first four weeks, 100 per cent, of those attacked died, that is, all of them died in the next four weeks there were 92 cases and 94 per cent died; in the third week, there were 221 cases and 91 per cent In the last four weeks, there were 446 cases, and 87h per cent died. Last week, there were 123 cases and of these 84 per cent died ; so you see there has been a steady diminution in the deaths from the discase. Within the last three weeks ending May 16th, there were 117 cases and in the next week there were 136 cases. Last week, it had fallen to 138, and let us hope that this week we will find that the fall will continue. There were, I believe, only 13 cases. yesterday. In that case we can look to the end of the epidemic by the end of July. It is necessary that we should have the relief that can be given by these wards. A larger number of cases will require a larger accommodation justend of being sent to the mortuary, and no institution has been opened at a more opportune moment than this one. I have nothing more to say, but adjoining this may be used conjointly only to declare this hospital open, which I by the two institutions, and thus these do with every good wish that in the future

> His Excellency then turned the key and opened the door of the main ward and declared the building open. Afterwards a glass of champagne was partaken of and cheers were given for the Governor as he left for his launch. It is probable that the building will be

Our friend the Scot is indeed getting t great reputation for himself. He has, of course a reputation already—in fact several reputations, but this one is of quite a new variety. The word new is used advisedly, because whoever heard, or would believe, that a Scotchman of an average kind was so fond of a 'wee drap' that he would alcomes that Mr Arthur Sherwell, a great authority on the drink question at Home, has had a depressing story to tell about the increase of drunkenness in Scotland. was, he said an embarassing paradox that while the temperance sentiment was undoubtedly increasing, the consumption of alcoholic drink was also increasing, especially in Scotland, in which country the crime arising from drunkenness had not decreased in the last forty years. The increase in the consumption of spirits was, of course, affeeted by commercial prosperity and the enhanced purchasing power of the community. During the last twenty years, he said, the convictions for crimes due to Japanese Yorn :- Sales of about 510 drunkenness had risen in a startling ratio and were still rising, and in 1896 the figure was 360 in 10,600 of the population, whilst in 1901 it was 417. CORRESPONDENCE

'LOOKING FOR A LONG RIDE.' To the Editor of the 'CHINA MAIL.' June 5th, 1903. Sir,-Referring to your report in last evening's paper under this heading anent the 15 coolies who were summoned for no completing a journey to Tripo, we would like to point out to you the facts so that

they may not be misrepresented. A private bargain was made with theso coolies to take five persons to Taipo at an agreed price. After delaying us considerably along the route they eventually put us down within 8 miles of our destination and would not proceed further, although we offered them further inducements in the way of extra inoney. Three of these per sons had Government business to attend t at Taipo which was a matter of urgency. and the coolies' refusal to proceed further caused them great inconvenience besides lors of time. So far from 'looking for a long ride,' it was a matter of a private contract between the parties which ought to have been carried out, and a summons was taken out against the coolies in order that satisfaction might be obtained for future cases, and as to whether ricksha coolies were at liberty to break contracts at will. The Magistrate referred to the Oldinance that ricksha coolies were not obliged to go accuseth, is perhaps a bad rendering in or beyond the New Territory, and dimissed the case, taking no notice of the fact that a special contract had been entered into.

So long as decisions of this nature are given in favour of these Chinese coolies they will still continue to treat Europeans in the way they do at present, -We enwas due to some outside understrapper, such, close our cards, and are. Sir, Yours ruly, TWO OF THE EUROPEANS.

> HARBOUR IMPROVEMENTS To the Editor of the 'CHINA MAIL.' Sir,-In your issue of the 23rd May, ander the heading Dredging the Harbour, you have an extract from the Harbour Master's Annual Report, in which he draws the Government's attention to the growing needs of the Harbour. This extract contains matter of the most vital importance to Hongkong, namely the welfare of the Port, and is worthy of a great deal of consideration and thought-more so than at first

sight may appear. It is a well-known fact, at least to those interested in the matter, that the shipping is out-growing the port. It is becoming more difficult every day to find berths for ships in such positions that they can easily discharge their cargoes. Even these Companies who have allotted borths are finding them too small for their more modern and larger type of steamers, and there seems

no way in which this can be remedied. to the detriment of the many. Transient permitted, this House requests the Governsteamers are detained an inordinate time. ment to confer with the signatories of the and have to pay heavy bills for junk, cargo- Berlin Act with a view to measures to abate tance that they have to lie out in the Harbour. The loss of time and labour to the fended the Congo administration, and the and the difficulty of keeping in touch with Government accepted the motion. Lord their offices, -ull these things are strangling Cranborne said differences of opinion exist-

Then the G vernment will probably none; as the Harbour Master truly says, ment would institute an exchange of views wake up with a look of surprise on its face pushing our reclamation schemes out into on that point; also regarding any evidence the already crowded harbour- narrowing of general mis-government which could be the space—silting up that which is already submitted to the Congo authorities. shallow enough, pushing the in-shore junk and small boat trade out into the congested anchorage; in fact, making confusion worse confounded. These reclamations we consider give more room to the labouring population to live near the scene of their labours. I doubt it very much. How many more houses for the labouring population does the present reclamation scheme give? Besides, most of the coolie class live out of the Colony—a great many on the mainland, as can be seen any mornlow his left leg to be in doubts as to where ing by watching the launches arriving at his right leg wanted to go? Yet the news the Praya. It is suggested to reclaim Wanchai to East Point. It would be better to get a dredger and dig it out, reduce the size of the men-of-war's anchorage, and have tiers of buoys for ships to moor head and stern. It is unnecessary to provide more coolie accommodation along the city front. Let them live as they do now - on the mainland, and, as the Harbour Master suggests, give them an easy means of communication with Hopekong. But not a bridge. A tunnel by all means, but save us from a bridge, especially a bridge of the Harbour Master? auggestion, dividing the barbour into two harbours with no connection except round the back of the Island. His interest in the sanitary conditions of the Island must have blinded him to these of the Harbour. WITH AN APPENDIX.

THE NEW FRENCH REMEDY THERAPION This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord.

Rostan, Johert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed. THERAPION No. removes, all discharges from the urinary organs, superseding injections, the use of which does irre-parable harm by laying the foundation of stricture

and other serious diseases. for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to em-ploy mercury, sarsaparilla, &c., to the destruction

of sufferers' teeth and min of health. This pre-paration purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

ness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. THERAPION is sold by all Chemists and Merchants throughout the World. Price in England 2/0 & 4/6. In ordering, state

which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word THERAPION' as it appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

## Hongkong Tides.

The tide table given below has been compiled at the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Teim Sha Tsui during the years 1887-8-9. The zero of the table corresponds with

Charts which has been found to be 4 feet inches below mean sen level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gauge at Lamout Dock, Aberdeen, add 10 feet 6 inches to

the zero of the soundings in the Admiralty
